Lehman's Manufacturing is the Central Valley's leading Custom Fabricator. Centrally located between San Francisco and Los Angeles, Lehman's offers precision fabrication at Valley pricing.

Offering Laser Cutting, Shearing, Forming, Welding and Rolling, Lehman's has the capability to take care of all your customer fabrication work.

## Rolling

From its beginnings in 1943, Lehman's Manufacturing has made customer satisfaction its top priority. Adam Lehman tailored his shop to give customer what they wanted in a timely fashion and at a competitive price. Over the years, Lehman's developed an expertise in working with their customers' unique needs and applications. Expanding the company's capabilities, Ken Lehman follows the traditions established by his father, and Lehman's now provides complete shearing, forming, laser cutting, welding and rolling services.
